

2024 Rows of PurL Retreat featuring designer Jenny Monteleone COME HANG WITH US..May 31-June 2!

All the news that is fit to print...

The first retreat was such a success and we are so grateful for everyone that was a part of making that happen! Such a success that we have been asked to repeat it again...and we aim to deliver. If you are joining us again or missed the first one and have been begging (since you heard how good the food was), it is time to mark your calendar!

Fun, Fiber, Feasting & Friends!

If you have been waiting for a time to celebrate your favorite pastime while hanging with your PurL Girl friends, then this weekend is for you! And, once again at one of our favorite places...**Feederbrook Farm in Freeland, Maryland.**

Yes, a three-day road trip highlighting some of our favorites that we want to share with you! Included in the trip are a special yarn store visit, a tour of Feederbrook Farm and Mill, a special learning session on shepherding, customizing and hand-dyeing your very own skein, a wine tasting event paired with an evening of live music and feasting from h'ourderves to dessert (a real "Summer Feast" featuring a French trained chef). You will create, knit/crochet your own creations (perhaps finish a project or two) around the farm for more hours than you can count (relaxing is the idea) making new friends and getting to know your purl friends much better. We will visit a local brewery for even more music and food and of course fiber in hand. Last but not least we will visit another working farm, Alpaca Yarn Co. Enjoy a farm tour, brunch and more creating before heading home. Late spring/early summer is the season and you know what that means...**babies! Lots and lots of babies!!** Did we mention lots of furry animals to admire, hold and perhaps feed all weekend long. We can't wait!!! Itinerary and hotel accommodations below. Spaces are limited so get your registration in ASAP!

(P.S. In the event that anyone is joining us again, there will be a few new surprises to look forward to!)
